WORK HISTORY

Software Developer   06/2024 - 10/2025

Independent Contractor

- Architected and delivered a full multiplayer social application supporting 3,000+ concurrent users with continuous updates over 19 months.
- Developed user interface systems including character customization, camera controls, and interactive modes.
- Implemented data persistence layer and backend integration for user profiles and progression.
- Built automated asset pipeline converting design files (PSD/PNG) to production-ready 3D formats (FBX).
- Collaborated with one other developer to deliver features across full stack in agile remote environment.

Junior Software Developer   04/2024 - 05/2024

Independent Contractor (Internship)

- Designed and developed user interfaces following UI/UX best practices.
- Supported frontend development tasks and resolved bugs to improve application performance.
- Implemented user experience enhancements based on real player's feedback.
- Adapted to remote work methodologies and integrated seamlessly with existing technology stacks.
